WEATHER PROOF ISOLATORS

- All units have an IP56 rating and the larger isolators (DNA type) have an M180 rating, which are perfectly suited for motor isolation.
- Made with high grade thermo plastic all units come with a 25mm conduit entry with reducers included and are built to IEC 947.3 standards.
- The larger frame DNA and MIS units have lockable handles and earth and neutral connections complete.
- The DNA-W63-4PY is a 4 pole unit , great for identification of critical isolation appartatus.
